

CKIS Eco School Council

Christmas tree decoration

Competition 2023!

Our Eco School Council are holding an 'Eco Christmas tree decoration' competition this year. As an Eco school, we aim to reduce plastic waste and re-use every day resources. We would therefore like the children to make their decorations from **natural materials** only. For example, fallen pinecones and twigs. The decorations will be hung on a tree inside the school hall so they will not need to be waterproof. There will be a winner from each class!

Please send in your **named** entries by Monday 4th December for judging so that our tree can be fully decorated with all of our wonderful decorations during that week.
