Head teacher: **Katie James BA (Hons) QTS**

15th November 2024

Dear families,

We just wanted to remind you about the exciting resources we have for you to use at home to support your child's mathematics learning. Firstly, we recommend using NumBots for 5/10 mins a day. This is a fun game that children can play independently using a computer or an ipad/tablet. It works on developing basic number fact recall and fluency which continues to be a big focus for us. All children have an individual log in for NUMBOTs which should be stapled to the inside cover of their reading diaries.

We would also like to highlight an app called '1-Minute Maths' developed by one of the maths hubs, White Rose. This is available to download for free and also works on basic number facts and operations in short bursts of just one minute long, so is great for quick recall and for time filling when out and about! Please click on the relevant links below to download the apps on your devices.

For KS1 children, we also have packs of 'Deliberate Practice' resources linked to each unit of our Mastery Maths teaching available for you to use at home with your children should you wish to. These will be posted as a '2Do' on Purple Mash as we start each unit. The children know how to access these if you don't!

If you have any questions do get in touch,

Kind regards,

Mrs Koller and Mrs Price
Maths Leads
